COUNSELOR TRAINING, SUPERVISION, AND EDUCATION

Under WAC 388-805-100, the Chemical Dependency Program at Western Psychological and Counseling Services, P.C., is certified (Registration Number 06 054100) by the Washington State Department of Social and Health Services, the Division of Alcohol and Substance Abuse to provide Intensive Outpatient Services, Outpatient Services, Alcohol and Drug Information School, and evaluation and treatment services for the Washington State and Clark county DUI and Deferred Prosecution Programs.

In Washington State, all chemical dependency counselors must be certified or registered with the state. Unlike licensing and certification, registration of an individual does not recognize any practice standards and does not imply the effectiveness of any treatment or modality. All of the counselors in this program are certified chemical dependency counselors, and/or registered counselors as directed in WAC 246-811-045, through WAC 246-811-049. They are listed in alphabetical order:
